# Highlights

## Power blocker

This automatic shutdown technology senses when the device has reached capacity and automatically shuts down electricity to your equipment. It protects against subsequent surges, even if you are not present

## 6 child-safe outlets

Safety slides provide a protective barrier that block the outlet so small objects cannot get in. Keeps children safer.

## V3 Advanced Surge Technology

This new surge protection technology provides 27% greater surge protection capacity and better heat dissipation for safe, more reliable and longer lasting surge protection.

## 4 ft power cord

Provides power to the unit which can be 4 feet from the AC outlet.

## Right angle plug

This flat design allows for more positioning options and lets furniture sit more closely to the wall.

## Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

## \$150,000 equipment warranty

Protects your connected equipment for the life of the product.
