Surge protector

Expandable
9 outlets

SPP4305WA

Personal Computer

2960 Joules

Designed to meet the demands of consumers looking for unique designs throughout their electronic accessories. Offers expandable outlet bank for additional outlets.

Ideal for dial-up and DSL

- Phone line protection
- 2-line splitter
- 6 ft power cord

High performance design

- 7 child-safe outlets
- 40 dB EMI/RFI noise filtration
- V3 Advanced Surge Technology
- \$200,000 connected equipment warranty

Built-in convenience

- 2 expandable outlets
- Right angle plug
- Protection indicator light
- Cord management system

PHILIPS
sense and simplicity

Specifications

Packaging

- Quantity: 1
- Gross Weight: 1.256 kg
- Tare Weight: .286 kg
- Net Weight: .970 kg
- Length: 47.0 cm
- Width: 19.4 cm
- Height: 9.2 cm

Outer Carton

- EAN/UPC/GTIN: 1 06 09585 13177 1
- Quantity: 6
- Gross Weight: 7.992 kg
- Tare Weight: .454 kg
- Net Weight: 7.538 kg
- Length (cm): 56.5 cm
- Width (cm): 20.6 cm
- Height (cm): 48.8 cm

Highlights

Phone line protection

These connectors accommodate an RJ11 cord, routing the telephone line through the surge protector to guard against spikes and surges.

2-line splitter

These connectors route the telephone line through the surge protector and split the line to allow two devices to be connected. It offers the convenience of leaving two devices connected constantly even though they may not be used simultaneously

6 ft power cord

Provides power to the unit which can be 6 feet from the AC outlet.

7 child-safe outlets

Safety slides provide a protective barrier that block the outlet so small objects cannot get in. Keeps children safer.

40 dB EMI/RFI noise filtration

Built-in filtering technology ensures the best performance from your components. It guards against signal interference and loss of data. The higher the dB rating the better the noise reduction.

V3 Advanced Surge Technology

This new surge protection technology provides 27% greater surge protection capacity and better heat dissipation for safe, more reliable and longer lasting surge protection.

\$200,000 equipment warranty

Protects your connected equipment for the life of the product.

2 expandable outlets

Two outlets that are expanded from the center of the surge protector and then can be unexpanded (hidden back in) when not needed. Allows user to plug in device temporarily and when not needed, may be hidden to maintain smaller desktop space.

Right angle plug

This flat design allows for more positioning options and lets furniture sit more closely to the wall.

Protection indicator light

This LED alert lights up to indicate the surge protector is working properly.

Cord management system

Collects the power cords and directs them away from the device in an organized fashion to keep the area clutter-free.
