3x more light

- Powered by new generation High-power Luxeon LEDs (40 lux)

PHILIPS

Saferide
40 LUX dynamo driven, Black

Highlights

Powered by new Luxeon LEDs

Powered by 1 new generation High-power Luxeon LEDs (40 lux). This high quality LEDs have been designed for the automotive industry and are now available to provide safety for bikers on the road.

High performance

Because of the shape of the retroreflector and design of the housing, the SafeRide LED Bikelight 40 provides: a wider illumination, a beam that starts closer in the foreground and a beam pattern that reaches up to 30 metres.

Splashproof plastic housing

As well as resisting knocks, the case is water resistant, and conforms to IP63.
