Highlights

4in1 remote control

Replace a table full of remote controls with one robust unit that'll operate your TV, VCR, satellite receiver (or cable STB set-top box) and DVD, regardless of the brand or model.

Pre-programmed for Philips

If you have Philips equipment, you can use your universal remote control without programming it because all keys are pre-set for Philips.

Big button

Big buttons are larger size buttons on a remote to help read the label better. Additionally, pressing the button becomes more convenient, as the size has increased by 2 mm compared to the standard button remote size.

Extra protection rim

The extra protection provided by the special rubber rim decreases the chance of breaking the remote. In addition, it improves the comfort and gives a firm grip of the remote in your hand.
