

**Philips
Soundbar 2.1**

200W max. Built-in subwoofer

Dolby Audio
DTS Play-Fi compatible
Connects with voice assistants

TAB8205

Deeper sound for movies and music

No space for a subwoofer? No worries. This sleek soundbar features a built-in subwoofer and a low-rise design that fits under most TVs. You'll experience effects that rumble, more powerful music, and clearer dialogue--without the clutter.

The sound you want for the content you love

- Smart, compact soundbar with built-in subwoofer
- 2.1 channels. 120W RMS. 200W max (10% THD)
- Dolby Audio. Be in the heart of the action

Unpack. Connect. Enjoy.

- Play-Fi. From multi-room audio to surround sound
- HDMI ARC. Control the soundbar with your TV remote
- Spotify Connect. Bluetooth. Apple AirPlay 2. Optical-in

Easy control. Distinctive looks.

- Easily connect to your favorite sources
- Connects to your favorite voice assistant-enabled devices
- Distinctive geometric design. Easy placement
- Dimensions: 857x67x115 mm

PHILIPS

Soundbar 2.1

200W max. Built-in subwoofer Dolby Audio, DTS Play-Fi compatible, Connects with voice assistants

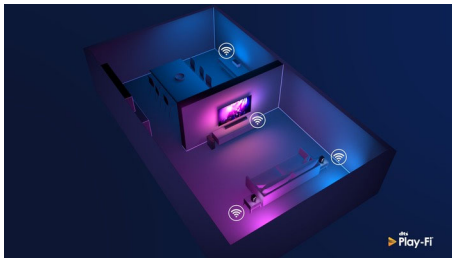

TAB8205/10

Highlights

Smart, compact soundbar

This soundbar brings a new dimension of sound to everything you watch, and every track you love. 2.1 channels make soundtracks richer, effects more thunderous, and dialogue clearer. The built-in subwoofer adds impact to every explosion and every beat.

Play-Fi. Multi-room and more

Easy Play-Fi compatibility will make this soundbar the star of your multi-room set-up. You can sync Play-Fi-compatible speakers for multi-room audio, or even create a true surround-sound system—all via the Philips Sound app, or the Play-Fi app.

Dolby Audio

Be immersed in your favorite shows and movies. This soundbar with built-in subwoofer supports the Dolby Digital Plus format for a more expansive and involving experience. Voices will be clearer. Effects will be more impressive.

All your favorite sources

Spotify Connect lets you stream Spotify's best-quality signal over Wi-Fi. You can also stream hi-res playlists from your mobile device via Apple AirPlay2 or Bluetooth. Audio-in lets you connect legacy audio sources, and the soundbar has optical-in as well.

HDMI ARC

The days of hunting for multiple remotes are over. This soundbar connects to your TV via HDMI ARC, allowing you to control soundbar volume with the same remote you use for your TV.

Connect with voice assistants

Ask Alexa-enabled devices, or any speaker that works with the Google Assistant, to play music through the soundbar. Prefer Siri? This soundbar works with Apple AirPlay 2, so you can ask her too. Turn the music up. Skip tracks. All completely hands-free.

Low profile. Easy placement

This soundbar boasts a unique slanted design and a low profile. When it comes to placement, the included wall brackets keep your options open. Thanks to the integrated subwoofer, you don't even need to worry about finding a spot on the floor for an extra speaker!

Specifications
