Highlights

Google Assistant

Download the Google Home app to your phone and you can ask this Bluetooth speaker to play music, get the latest news, and more. You can even use the speaker to control your Google Assistant-compatible smart home devices. Far-field mics ensure you'll be heard from anywhere in the room.

Versatile function

A large digital-time display glows behind the fabric surround of this Bluetooth speaker. Key controls are located on the glossy top panel, which also hides a wireless Qi charging pad for your phone. Press for Google Assistant, volume, or play/pause. For older-style phones, there's a USB charging port.

Sounds great

With two 1.5" full-range drivers, plus a passive radiator to boost the bass, this speaker pumps out surprisingly big sound.

Day and night

You can light it up in the middle of the night thanks to the night-light function: simply press the button on top of the speaker.
