Sound

- Acoustic system: Closed
- Diaphragm: PET
- Frequency response: 20 - 20,000 Hz
- Magnet type: NdFeB
- Impedance: 16 Ohm
- Speaker diameter: 6 mm

Highlights

Up to 12 hours of play time.

You get up to 3 hours of play time on a single charge. If you head out with a fully charged case, you get an additional 9 hours over multiple charges. Just put the headphones back in the case each time they need charging. A full charge takes 2 hours.

Small earphone design.

You can rock your sounds in real comfort thanks to the snug-fitting, lightweight design.

Always great sound

The 6 mm neodymium acoustic drivers give you great sound and punchy bass. The oval-shaped acoustic tube maximises passive noise isolation. Mono mode gives you the option to leave one ear free for when you want to stay aware of the world around you.

Multi-function button.

You control music and calls via the multi-function button. Don't like the current track? Skip it with a long press. Want to reject a call and keep listening? One press will take care of that. The built-in mic with echo cancellation keeps sound clear when you do take a call.

Hey Google!

Wake your phone's voice assistant with a double button-press. Ask Siri or Google Assistant to set up your next playlist, call or send messages to friends, check the weather and more.

Smart Bluetooth pairing.

These earphones are ready to pair the instant you take them out of their charging case. Once they're paired, the earphones remember the last device they were paired with.
