

Limited Warranty

PHILIPS provides original consumer purchasers of the Internet Power Phone™ with a warranty against defects in material and workmanship for 90 days from the original date of purchase as recorded on the sales receipt. This warranty is extended only to original consumer purchasers. In the event that, during this warranty period, your new Internet Power Phone should prove to have material or workmanship defects, PHILIPS will, without charge, repair or, at its discretion, replace your Internet Power Phone. This warranty does not apply to defects or malfunctions caused by abuse, accident, modification, negligence, or any other damage not resulting from defects in material or workmanship or for reasons beyond the control of PHILIPS.

THIS WARRANTY IS IN LIEU OF AND EXCLUDES ANY CLAIMS BY THE CONSUMER FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES.

Repair of Internet Power Phones must be performed by PHILIPS or by an authorized agent. Defective Internet Power Phones should be returned to place of purchase or alternatively, may be sent to PHILIPS with proof of purchase, properly packaged, and insured.

An RMA number must be obtained prior to returning any merchandise. Please include your name, return address, telephone number, e-mail address, and a description of the malfunction. PHILIPS assumes no responsibility for Internet Power Phones received damaged due to improper packing or shipping. No responsibility is assumed for the repair and/or return of foreign attachments including adapter plugs, extra length cords, custom faceplates, headset jacks, etc.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
