I Install

1. Connect to main supply
   - Insert the plug of the power cord into the socket on the bottom of the base unit
   - Plug the power supply unit into your power outlet.

2. Install the software
   - Insert the installation CD into the PC’s CD ROM (or DVDROM) drive
   - The installation program will start automatically
   - Follow instructions on the screen.

3. Connect the telephone line cord to the phone socket on the bottom of the base unit and to the wall phone socket.

4. Insert batteries
   - Place the 2 rechargeable NiMH AAA batteries, observing their polarities, into the battery compartment on the handset.
   - Slide the battery door firmly into place.

5. Charge handset
   - Before first use, put the handset on the charger and charge batteries for 24 hours minimum.
   - To set the language of your handset, press any key when you see WELCOME.
   - Select your country and press OK.

6. Connect
   - Connect USB plug
     - Connect the USB plug directly to your PC’s USB slot.
     - Go on following instructions on the screen.
   - Connect the line
     - You may find in the box the line adaptor. In this case, first plug this line adaptor onto the line cord before connecting it to the line socket.
     - Connect the telephone line cord to the phone socket on the bottom of the base unit and to the wall phone socket.
   - Connect the charger
     - Insert the plug of the power cord into the socket on the bottom of the charger
     - Plug the power supply unit into your power outlet.

Finish installation

- Click on Quit.
- Remove the installation CD from the PC’s CDROM drive.
- Use the Skype version provided on the installation CD for the handset to work properly.
