• SmartClock™ with Time Zone Select
• Auto head cleaner
• Universal lighted remote control

Full Auto-Feature Package
• Power on
• Auto play
• Auto repeat
• Auto rewind
• Auto eject
• Auto power off

Universal lighted remote
Programming & Record/Playback Features

VCR Plus™ Programming
Simplifies VCR programming by allowing you to simply enter PlusCode® programming numbers found in many published television listings. When recording begins, your VCR automatically selects the proper TV channel and program length. Back-up memory logic retains the channel channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

One-Touch Record
Record up to 8 hours or to the end of the tape with the touch of a single button. Each touch of the OTR button adds 30 minutes of additional recording time.

8-Event/1-Year Smart Programming
Program your VCR for unattended recording of up to 8 separate programs over a full 365-day period. No manual setting, adjusting, or programming of the calendar function is required.

Remote Control Onscreen Menu Programming
Program by remote control for unattended recording, with programming instructions onscreen for visual verification. Onscreen menus lead you through normal, daily, or weekly programming by program number, channel to be recorded, start and stop times, speed, and date of recording by day, month, and year. Pressing the CLEAR button lets you go back and reprogram over mistakes, and pressing the MENU button at the end of programming verifies that instructions are locked into memory.

Picture
SQPB (S-VHS Quasi-Playback)
A revolutionary video playback technology that allows you to watch videotapes recorded in the S-VHS (Super-VHS) mode. Now you too can enjoy the videos that your Uncle made at the last family reunion without buying expensive S-VHS equipment.

Incredible Picture™
For picture detail that’s so real, you’ll think you’re a member of the cast! The menu-selectable Incredible Picture settings boost picture detail beyond average, all the way to incredible! Choose from NORMAL, VIDEO ENHANCER, or INCREDIBLE PICTURE modes.

4-Head, Double Azimuth Design
Digital Auto Tracking System
Auto Head Cleaner

Convenience
SmartClock™
This menu-driven feature automatically maintains the correct time, regularly checking and updating the time if necessary. It also resets the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their CATV service provider.

Daylight Savings Time Adjustment
This menu-driven feature automatically compensates for Daylight Savings Time changes in early April and late October so you don’t have to reset the clock twice a year. Simply activate the Daylight Savings Time option in the Set Clock menu and forget it!

Automatic Channel Setup
The VCR tuner scans through television frequencies, automatically storing active broadcast channel into memory. Then, only active channels programmed into memory are tuned using the CHANNEL ▲▼ buttons on either the remote or front panel of the VCR. Automatic channel preset can be repeated whenever desired, should new channels become available. Channels can be manually added or deleted.

* SmartClock and Incredible Picture are trademarks of Philips Consumer Electronics Corporation. VCR Plus+ and PlusCode are trademarks of Gemstar Development Corporation. The VCR Plus+ system is manufactured under license from Gemstar Development Corp.

Front Panel Audio/Video Inputs
Provide added convenience to the user when recording tapes directly from a camcorder to the VCR. In addition, accessory video equipment such as a video game or Web browser can be connected for direct playthrough to the TV set.

181-Channel FS Tuning
The digital quartz tuner can receive up to 181 channels, including UHF, VHF, and 113 cable channels, without the inconvenience and expense of a cable company decoder/ converter (on non-scrambled cable systems). Channel tuning is by random access with the remote control transmitter or scan tuning up and down by remote or at the set.

Clock/Function Display
Trilingual (English/Spanish/French) Onscreen Function Display
Onscreen Real-Time Counter
Timer/Programmer Back-up System
Repeat Play
Quick Start Mechanism
Audio/Video Input/Output Jacks

Special Effects
Variable Slow Motion
View SP or SLP video recordings in slow motion in both forward and reverse modes. Slow motion speed can be adjusted from 1/5th to 1/60th normal speed in either direction.

21x Forward/Reverse Latching Search
Search in forward or reverse mode at 21 times normal playing speed in SLP, and 7 times normal in SP. The Latching Search feature provides continuous forward or reverse search with a single touch of the control. A second touch stops the search operation and returns the unit to the Play mode.

Skip Search
x2 Play
Index Search

Remote Control
Universal Lighted Remote
Controls all operating features and functions of this VCR and any Philips Magnavox TV with armchair convenience— including all special features, random channel access, and channel scan up/down. An LED on the front panel of the VCR blinks when a command is received from the remote, providing a virtual “handshake” for confirmation.
