Party mode!

7 different daily alarm songs

Streamium

WAK3300

Enjoy all your music in every room

Big sound in a compact design

The WAK3300 Station brings you a new experience in wireless music. Thanks to its small size and portability, you can access your favorite music wirelessly in the bed, in the kitchen or even in your bathroom.

Unlimited listening pleasure - wirelessly

- Wireless streaming between Music Center and Station(s)
- Wireless streaming from PC via UPnP

Easy navigation and control

- My Room, My Music: Listen to different music in each room
- Music Follows Me: take your music with you from room to room
- Music Broadcast for simultaneous playback to all Stations

Wake up to different alarm mode

- 3 different alarm modes: radio, buzzer and streamed music
- Store 7 different daily alarm songs from Music Center & PC

Quality sound performance

- Micro Driver Sound technology

PHILIPS
sense and simplicity

Highlights

Wireless streaming

With wireless streaming, you don't need to download and store large music files on our

audio device. Instead, you can listen to favorite songs as they are continuously streamed to all the Music Stations - at the same time. Have your music follow you from room to room with Music Follows Me - no need to restart navigation and playback. Music Broadcast simultaneously broadcasts your desired music from the Center to all Stations. And with My Room, My Music, any family member can enjoy selected music from the stored collection in any room that is equipped with a Wireless Music Center or Station.

Universal Plug & Play

Universal Plug & Play is an industry standard technology that lets you connect to any Universal Plug & Play enabled device to receive or transmit music. Your Wireless Music Center utilizes Universal Plug & Play to ensure an easy and standard way to connect to other Universal Plug & Play enabled devices. You can easily connect your Wireless Music Center to other media devices to receive or to transfer content.
